

## Proposal Review & Selection Criteria

The following criteria will be used to review and rank all submitted proposals using an established point system:

- ❖ Project's location (OVPA preference).
- ❖ Project's feasibility.
- ❖ How compelling is the project?
- ❖ Applicant's and participants' qualifications.
- ❖ Proposal clarity and detail demonstrating applicant's ability to successfully complete the proposed project.
- ❖ Project's realistic timeline.
- ❖ Amount & type of air pollution directly reduced over time by the project contrasted with the requested amount (cost per ton of air pollution reduced per year).
- ❖ Amount & type of air pollution indirectly reduced contrasted with requested amount.
- ❖ Cost sharing, including project's total *real* costs compared to requested amount.
- ❖ Committed project partners and community support.
- ❖ Populations directly benefited by project's air quality improvements, including those immediately adjacent to the project's proposed location.
- ❖ Anticipated project benefits beyond air pollution reduction.
- ❖ Community and social benefits from project, including economic stimulation. The potential for job creation should be addressed.
- ❖ Potential risks to project success and risk avoidance measures (contingency plans), including applicable insurance coverage.
- ❖ The use of local vendors and suppliers.
- ❖ Competitive bids.
- ❖ Project's life span.
- ❖ Future support of project beyond 2013.

**To qualify for consideration, all CAPP proposals must be received or postmarked by February 15, 2012.**
